INSTRUCTIONS TO CANDIDATES:
(To be read out by the external invigilator before the start of the examination)

There are 50 questions in this paper. Attempt ALL questions even if you are not so sure of some of the answers.

The Examination is divided into three parts:

PART A: 25 x Multiple-Choice questions (25 marks)
PART B: 20 x Short Answer questions (20 marks)
PART C: 1 x Extended Answer question (5 marks)

The Answer Sheet is placed in the middle of the Examination Booklet. Take out the Answer Sheet from the Examination Booklet.

Write your candidate number, your name, school name and province name in the space given on the Answer Sheet. The invigilator will tell you what to write.

For each question in PART A choose the best answer and write its LETTER in the space given on the Answer Sheet.

For each question in PART B work out the answer and write the answer in the space provided on the Answer Sheet.

If you find a question very difficult, do not spend too much time thinking about it. Leave the question out and go on with the rest of the paper. If you have time in the end, return to the difficult questions and think about them more carefully.

Write your answers in BLUE or BLACK ink (pen or biro).

If you decide to change an answer, make your correction as shown below so that it is clearer to the markers what your final answer is. Do NOT use correction fluid on your answer sheet.

Hand in BOTH the Answer Sheet and the papers used for rough work at the end of the examination.

Extra time will NOT be allowed to complete the examination under any circumstances.
