LANDOWNERS STOP WORK AT LNG SITE

The disgruntled landowners from Hides and Komo in the Southern Highlands Province have stopped work at the PNG LNG project sites because developer ExxonMobil has not released the national content plan.

Landowner leader for Hides 4 and PDL 7 project area, Eric Ayule said the threats imposed on ESSCO Highlands workers and other LNG workers were not made by drunkards or drug addicts but by genuine landowners who wanted developer ExxonMobil to release the national content plan.

“They are frustrated landowners who want to get into the business.” Mr Ayule said.

The leader said the landowners need to know from which companies the landowner companies will get contracts and what type of contracts and businesses they were eligible to engage in.

“All these are in the national content plan as per the agreements we the landowners signed with ExxonMobil and the National Government,” he said.

“The landowner companies wanted to be involved in the early work and the construction phase of the project but did not know what type of work they should be involved in.”

Mr Ayule said the threats and disruptions would continue until the national content plan was released and when the landowners were kept occupied with spinoff business and contracts.
